EDUCATION

The University of Lahore

Bachelor of Science in Computer Science - (CGPA: 3.34)

Lahore, Pakistan

February 2020 – February 2024

EXPERIENCE

Freelance Frontend Developer

Independent

July 2023 – Present

Remote

- Crafted animated and beautiful portfolio websites for AI engineer and medical content writer.
- Updated **Wordpress** website for a non-profit organization

PROJECTS

Entertainment App | [GitHub](#), [Live Demo](#)

March 2024 – March 2024

- Employed a secure **MERN** stack, ensuring robust features: data storage, **API** development, client-side rendering, and server logic.
- Strengthened security with **JWT** authentication and **Bcrypt** hashing, safeguarding user data and authentication processes.
- Leveraged **Cloudinary** for media storage and CDN generation.

Construction Advisor (FYP) | [GitHub](#)

June 2023 – February 2024

- Developed a comprehensive full-stack **Nextjs** web application facilitating customer-contractor connections for construction projects.
- Implemented user roles and user privileges
- Integrated a real-time chat feature using **Web Sockets** and **Pusher**.
- Managed application state efficiently with **Redux Toolkit**.

Invoice App | [GitHub](#), [Live Demo](#)

June 2023 – July 2023

- Engineered a full-stack invoice storage app.
- Conducted thorough integration testing with **Jest** on the backend.
- Employed **Redux Toolkit** for streamlined state management.

HACKATHONS

Story Craft AI - Eleven Labs AI Hackathon | [GitHub](#), [Event](#)

July 31, 2023 – August 2, 2023

- Contributed to backend development for a story generation **AI** application.
- Implemented efficient backend routing with **Node.js** and **Express**.
- Collaborated seamlessly with frontend developers using **Git** and **GitHub**.

SoulJourney - Google Vertex AI Hackathon | [GitHub](#), [Event](#)

July 7, 2023 – July 9, 2023

- Played a key role in frontend development for a personal growth AI application.
- Implemented robust routing with React Router and employed **Tailwind CSS** for styling.
- Successfully collaborated with **UX/UI** designers and fellow frontend developers via GitHub.

CERTIFICATIONS

Learn Javascript - [Scrimba](#)

Learn React Router V6 - [Scrimba](#)

Version Control - [Meta](#)

Python - [Kaggle](#)

Eleven Labs AI Hackathon - [Lab Lab AI](#)

Google Vertex AI Hackathon - [Lab Lab AI](#)
